AURORA STORE

\$50,000

PURCHASE SALE!

Never, since Ardmore was staked out as a city, has a sale created such gigantic, hearty public approval as this sale has created. Congratulations are pouring in on the management from all portions of the county and no hesitancy is shown in the many expressions pronouncing the \$50,000 Purchase Sale the greatest money-saving sale ever held. We wish to thank our many friends and customers for their very liberal patronage, and for the ever ready response to our advertisements, and right here we want to offer an apology to those who could not be waited on the first two days of our phenomenal sale. Promising due courtesy upon their return, to those who have not been fortunate enough to attend this sale up to now, we wish to say, DON'T PUT OFF TILL TOMORROW WHAT YOU SHOULD DO TODAY.

Look To Your Interests

and come at once to the grandest money-saving opportunity you have ever had.

OIL and GAS NEWS

The 1911 Oil Company's well on the G. W. Clark farm in 25-3-3 found a new sand at a depth of 1,105 feet. The well is now 1,130 feet, the sand has been penetrated 27 feet and grows richer with deeper drilling. Old timers pronounce the quality of the sand much better than that found at a lesser depth in the field and the oil is of a slightly heavier grade. The thickness of the sand is yet unknown and the risk will be moved to a new location and the second well will be drilled through the sand to test it. The sand has been growing richer as it was penetrated and the oil men are of the opinion that the new sand is of a thickness that will make it one of great value. The actual gauge of the well now shows 14 barrels an hour.

The Hess Tucker well in 36-3-4 is an important test. This well is at a depth of 500 feet and the drillers are having trouble with a crooked hole. It is believed, however, that the well can be saved.

The Hardy Oil Company's well in 27-3-4 is another important test but in wild cat territory. This well has been shut down for some time on account of lack of fuel but is now drilling at 600 feet.

The field to date has eight producing wells, the minimum estimate of its production is 1,000 barrels a day, there are today stored in tanks in the field 15,000 barrels of oil.

C. P. Stewart has arrived here from Parkersburg, Va., and will

assume his duties as district foreman for the Magnolia Pipe Line Company. This company is making rapid progress in the construction of its first 55,000-barrel steel tank. Twenty-five skilled steel workers are now erecting the storage tank and if good weather continues the company will be ready to receive oil between the 20th and 25th of the month. The gathering lines are being laid simultaneously with the construction of the tank and one part of the system will not be forced to wait upon another.

Many new contracts are being let for drilling and some wild cat locations are being made several miles from the field.

The H. O. Caveri well on the Grove Chase farm in 28-3-3 is drilling. This well is located north and east of the 1911 well and is being watched with much interest. The interest of the producers is now centered in the territory to the north of the field.

The Whittle well in 28-4-2 that was reported a gas well is drilling at 620 feet. Only a pocket of gas was found and the test is being drilled deeper.

The Genshurg-Porman well in 24-3-3, far to the south of the producing wells, is drilling at 645. Several sands containing salt water have been encountered and the well does not look promising.

MOYER TESTIFIES ABOUT ABDUCTION

STORY AS TOLD GRAND JURY AT HOUGHTON IS KEPT SECRET—FERRIS ENDS PROBE.

Houghton, Mich., Jan. 8.—Charles H. Moyer, president of the Western Federation of Miners, and Charles Tanner, auditor of the organization, Thursday told the grand jury here their versions of the Moyer deportation episode of December 26. Less than two hours were consumed in the grand jury room, the men then returning to the hotel in Hancock, whence they were taken a fortnight ago. The nature of their testimony was kept secret.

Except for the fact that a big crowd of union men greeted their leader on his arrival and stood about the hotel in groups, no incident occurred to recall the intense bitterness that preceded the deportation. Both federation men were guarded by deputy sheriffs.

Except for their trips from the railroad station to the hotel and to the courthouse in Houghton and back to Hancock the two made no appearance in public.

O. N. Hilton, chief counsel for the federation, met the party at the hotel and immediately went into conference with his clients. It was presumed that developments in Governor Ferris' inquiry into strike conditions were discussed but no announcement was made. Victor Berger, former Milwaukee congressman, who is here as a member of a committee from the national socialist party, was admitted to the room.

Governor Ferris and Moyer did not meet. The governor left Houghton in an automobile early in the afternoon and did not return for several hours. Meanwhile the federation men had completed their visit in Houghton.

So far as seeking information was concerned Governor Woodbridge N. Ferris of Michigan virtually completed his mission to the copper strike zone Thursday night. There remained the problem of a settlement but indications were that the governor's activities in this direction might be postponed. He let it be known that if possible he would leave for Big Rapids Friday morning. In any case it was said he intended to board an outgoing train Friday night.

Chief interest Thursday centered in the testimony of copper mine operators. It largely was an historical discussion, although emphasis was laid on the opinion of individual mine officials, that union labor as such was not repugnant to them. They, however, made it plain that the Western Federation of Miners could hope for no consideration from company sources. They declared this position could not be changed.

Foreigners Against Union. After the conference with mine men the governor met a delegation of Italian and Finnish non-union workmen who came to ask state protection. They told the state executive they were subjected to daily threats and abuse from strikers. They said they had no use for the Western Federation of Miners or any other union.

At night the governor met Victor Berger, Milwaukee, Seymour Steadman, Chicago, and Charles Edward Russell, New York who are investigating the situation for the national executive committee of the socialist party.

HOW HAVE THE MIGHTY FALLEN

HERO OF LAS GUASIMAS CONVICTED OF THE CHARGE OF INTRODUCING LIQUOR.

Muskogee, Okla., Jan. 8.—Thomas Isbell of Vinita, who says he fired the first shot at the Spasandis on Cuban soil in the late Spanish-American war, battle of Las Guasimas, and who suffered several wounds in the opening skirmish, was convicted in the United States district court at Muskogee Thursday afternoon on the charge of introducing liquor into the Indian country of eastern Oklahoma and in consequence will have to serve a penitentiary sentence, which as yet has not been pronounced.

Isbell answered to the charge of implication in hauling a wagon load of whisky to Vinita. It was on a recitation of the de-

pendant's record that the attorneys for the defense made their appeal for acquittal.

Isbell was a private in troop L of Captain Allen Capron's sturdy Muskogee recruited band of rough riders. On the second day after arriving troop L was making its way inland, being in the vanguard of the march. Isbell, in the front rank of the advance, sighted the enemy. Already unstrapped and ready for action, he brought his Krug-Jorgensen into play and it was he who registered the first crack of rifle fire. In the skirmish Isbell was struck seven times. It is claimed that he still carries one of the bullets.

Assistant United States Attorney Frank Lee said: "We are all serving our country in some capacity and the fact that Isbell once served his country valiantly is no reason why he should not be punished if he is found guilty in this case."

The jury returned the verdict of guilty after a short deliberation.

GRAHAM MAY OR MAY NOT RUN

"IT ALL DEPENDS," HE SAYS WITH A GRIN, WHEN ASKED WHAT HE IS GOING TO DO.

Clint Graham, the Titian torch top from the capital of Love is just a meddler and when asked if he is going to get into the race for district judge for this judicial district yesterday stated that he had not decided and it depended altogether upon certain events that will transpire within the next few days.

Graham has been closely identified with politics ever since delegates were chosen to the constitutional convention and was one of them. He represented his constituents in the state senate, was a candidate before the primaries for attorney general and was immortalized during the campaign by the facile pen of Landrum of Tahlequah.

If Clint gets into the race for anything business is bound to pick up and if he is not successful his opponent will always remember that there was some race to contend for.

The Only Indian Catholic Priest.

Ashler, Okla., Jan. 8.—Rev. Albert Neghanquet, who lives with his parents near this city, is the only Indian Catholic priest and he was ordained several years ago in Rome.

values it is necessary for you to see the goods. If you can't attend this sale during the day, come down Saturday night and save from 25 to 50 per cent on every purchase you make.

Westheimer & Daube

With the Price of Meat and Eggs Soaring

It's worth while to consider the double advantage—economy and health—of using cereal food.

Wheat and barely are rich in Nature's nutriment, and there's substantial evidence that cereals give one greater endurance

Grape-Nuts FOOD

--made from whole wheat and malted barely--contains all the natural nutritive elements of these great food grains, including the mineral phosphates grown in the grain--which are indispensable to perfect balance of body, brain and nerves.

Grape-Nuts food is delicious, economical and convenient--ready to eat direct from the package with cream, and a little sugar if desired.

Same old reasonable price

--15c the package

"There's a Reason" for Grape-Nuts

--sold by grocers everywhere.

BOTH GAINED.
Man and Wife Thrive on Grape-Nuts.

The notion that meat is necessary for real strength and the foundation of solid flesh is not new as prevalent as formerly.

Excessive meat eaters are usually sluggish a part of the time because they are not able to fully digest their food, and the undigested portion is changed into what is practically a kind of poison that acts upon the blood and nerves, thus getting all through the system.

"I was a heavy meat eater," writes an ill man, "and up to two years ago was in very poor health. I suffered with indigestion so that I only weighed 95 pounds.

"Then I heard about Grape-Nuts food and decided to try it. My wife laughed at me at first, but when I gained to 125 pounds and felt so fine, she thought she would eat Grape-Nuts, too. Now she is fat and well and has gained 40 pounds. We never have indigestion any more and seldom feel the desire for meat.

"A neighbor of ours, 68 years old, was troubled with indigestion for years, and was a heavy meat eater. Now, since he has been eating Grape Nuts regularly, he says he is well and never has indigestion.

"I could name a lot of persons who have rid themselves of indigestion by changing from a heavy meat diet to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs.
